

K-Love 88.3 FM serves me in my local area by providing music that is wholesome and uplifting. I also receive information about local family oriented events that are free and open to the public. I tune in to K-Love in many cities as I travel as I know that it is consistent in providing a program format that appeals to me.

If K-Love were displaced by a Low Power FM station I don't think it would draw me to that station unless it provided a similar program format. Frankly, we have had LPFM stations come and go as they can't seem to raise enough revenue in this rural area to cover their costs.

I feel that it is in the public interest to give K-Love 88.3 FM priority status in broadcasting in this area over any new LPFM applicant as K-Love serves many of the local communities in this broadcast region with notification of concerts and other family oriented public events as well as being a source of quality wholesome family friendly entertainment. Over the past eight years, we have built many positive family memories by sharing songs or attending local concerts that we heard of by listening to K-LOVE. Thank you for the opportunity to provide comments.
